Math Lecture HW  
(more info on next 2 slides)

# Math Lecture HW

- o Please watch **10 minutes of a College or University math class** lecture, *preferably from the college you wish to attend*, if you can find a video. This can include statistics, calculus, pre-calculus, college algebra and discrete math courses. You may NOT watch Khan Academy or random math videos; these must be video recordings from an actual university math class.
- o Answer questions on the Google Form about your video. It is on the class website (Unit 5) or go to <https://goo.gl/forms/T0o0huRzd8Za2Vur2>

# Math Lecture HW

- o Answer questions on the Google Form about your video. It is on the class website (Unit 5) or go to <https://goo.gl/forms/T0o0huRzd8Za2Vur2>

# Part of HW: Math Lecture Video

## Questions

1. Name the university, professor and course video you selected to watch.
2. Write down the link to the video.
3. Name two math ideas or concepts that you learned in this video.
4. Name two positive things about observing this math course.
5. Name two things you observed about the course that you did not enjoy.
6. Is the math lecture what you expected? Did this viewing change your feelings about future college math courses? Explain.
