

Unit 7 Day 0

College Tour Activity &
Intro to Graph Theory

Arrival

Pick up by Door

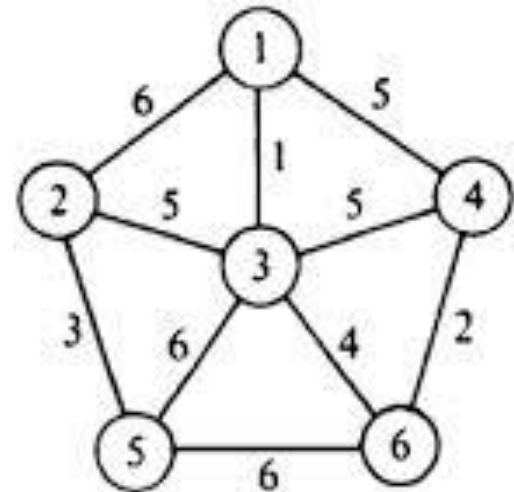

- Unit Outline
- Packet Unit 7 Graph Theory

Pick up by window (if you missed it yesterday)

- College Tour Mini Project Rubric

College Tour Activity

- Answer at least 10 questions about your university (questions posted on course website). Write/type the question and question number, THEN your answer! (I recommend you do this part AT HOME so you ask questions about the graphs, if needed, in class today.)
- Find the best path to travel for a tour of 3 colleges
- Create final products with Weighted Graph and Nearest Neighbor Algorithm, and Tree Diagram
- College Tour handout has complete directions

- More info on next slide →

College Tour Activity (continued)

- Due Tuesday 4/30 at the start of class
- Neatness counts! Make Quality graphs and diagrams. Do rough drafts for each graph on notebook paper. Then do FINAL graphs on Printer paper. Junk Work = Junk Grade! ☹️
- For graphs, use ruler AND ink or marker
- Be sure to follow directions on all parts – including how to organize your final product for turning in!
- You have the class period today to work on it!

- More info on next slide →

Day 0 College Tour Activity

- due Tues 4/30 as soon as you arrive to class
- Staple ALL pieces together in order EXCEPT the rubric. You'll Paperclip the rubric on top.
- You'll turn it in to the appropriate slot of the Silver Tray next to the window 😊

Classwork/Homework

- Work on College Tour Activity
