Unit 6 Day 7: Monopoly Lab Activity Estate Division
Monopoly Lab

• All players receive:
  2 $500's, 2 $100's, 2 $50's, 6 $20's, 5 $10's, 5 $5's, and 5 $1's.
  All remaining money and other equipment go to the Bank.

• Select as Banker a player who will also make a good Auctioneer. A Banker who plays in the game must keep their personal funds separate from those of the Bank.

• Each time a player's token lands on or passes over GO, whether by throwing the dice or drawing a card, the Banker pays that player a $200 salary.

• A Rule that many don't know about....
  If someone lands on a property that they don't want, it goes up for auction and the highest bid wins the property!
More about the Lab...

- You will work as a group of 4 (or 5)
- BUT each person must complete and turn in the lab sheet
- All labs from the group will be turned in, and one will be graded to get the grade for the group – so be help your group members and be sure to check their work
To finish the Lab...

When 20-30 minutes remain....

- STOP playing the game
- Eliminate player with the most cash – make sure they also have properties
- All group members will make bids on the eliminated player’s properties
- Be sure you record all of this data
- Be sure to complete all the steps on the lab sheet

Then start working on the Estate Division! 😊
Homework

- Finish the Lab!
- Eliminate player with the most cash and make bids on all of their remaining properties
